Sensemaking

Review the course catalog sensemaking problem here:

<https://bit.ly/3ltWmIC>

Exercises

Exercise 1:

Pull the course catalog files. Place your code in `01_pull.py`

Exercise 2:

Combine the course catalog files into one. Place your code in `02_combine.py`

Exercise 3:

Get the course titles. Place your code in `03_get_h3.py`

Exercise 4:

Clean the titles. Place your code in `04_clean.py`

Exercise 5:

Count the words. Place your code in `05_frequency.py`

Exercise 6:

Run files 1-to-5 programmatically, sequentially. Place your code in `06_runner.py`

Submit

Submit your code. Problem set submission instructions are here:
